

COMPONENT FEEDER

PK 2.1 / PK 2.2

Component Feeder produced by TAURUS, s.r.o., Chrudim, is a machine designed for unloading difficult to pour materials (products) from containers and silos in feed mills and from powder containers at grain silos.

Rotation of the star wheel carries the material into the tangential outlet. A worm arching crusher is fixed above the star wheel. An electric worm-gear serves as a drive unit.

The device is not intended for dosing products!

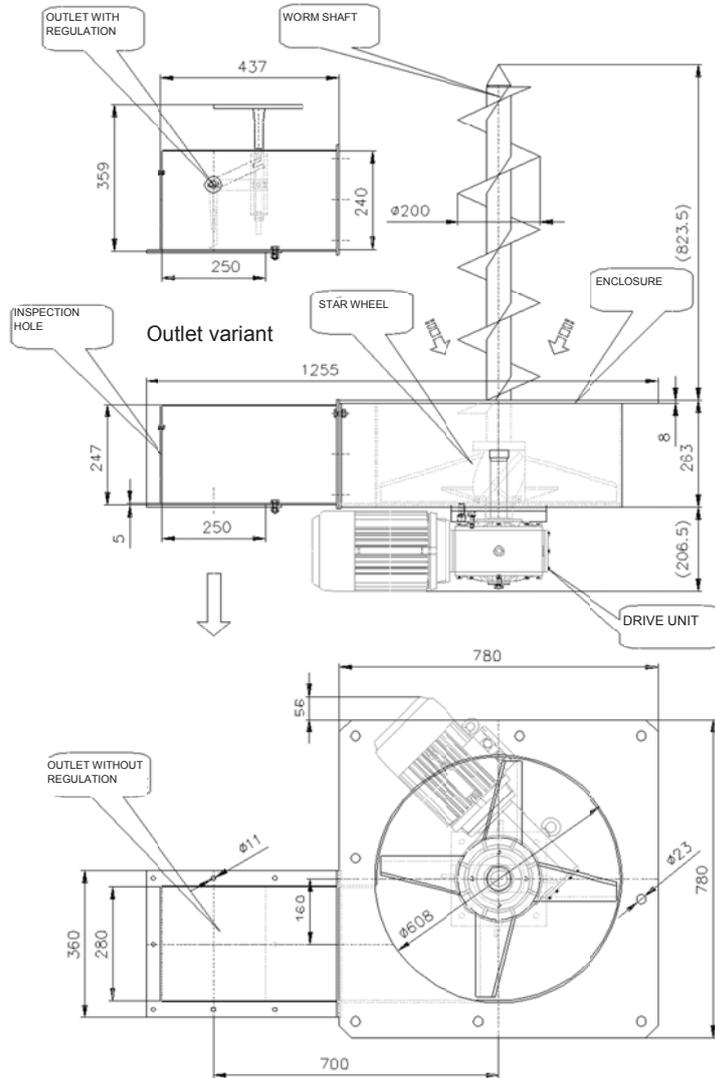

Item		Unit	Version	
			PK 2.1	PK 2.2
Basic dimensions	length	mm	1 255	
	width		840	
	height		1 295	
Rated rpm	rpm	57	72	
Capacity	t/h	20 *	25 *	
Rated supply voltage	V	230/400		
Installed power	kW	2.2		
Total weight	kg	180		

* This applies to volume density of 500 kg.m⁻³.
