

COMPONENT FEEDER

PK 1.1 / PK 1.2

Component Feeder produced by TAURUS, s.r.o., Chrudim, is a machine designed for unloading difficult to pour materials (products) from containers and silos in feed mills and from powder containers at grain silos.

Rotation of the star wheel carries the material into the tangential outlet. A worm arching crusher is fixed above the star wheel. An electric worm-gear serves as a drive unit.

The device is not intended for dosing products!

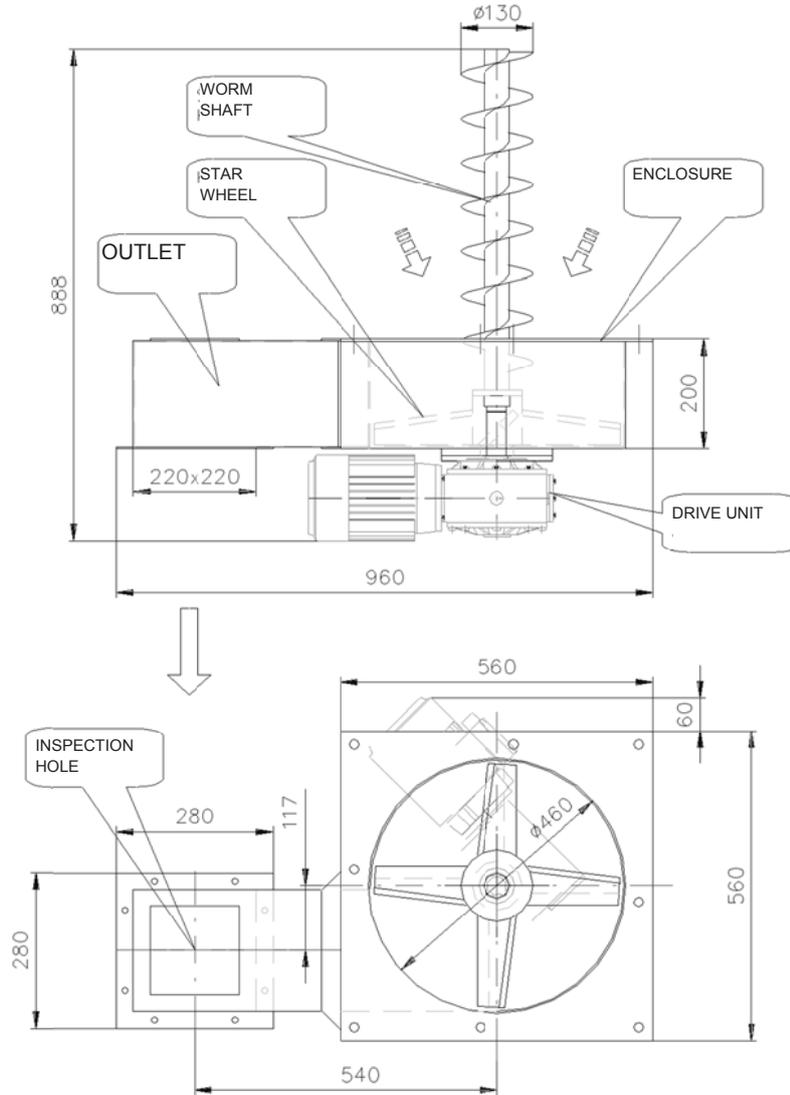

| Item | | Unit | Version | |
|----------------------|--------|------|---------|--------|
| | | | PK 1.1 | PK 1.2 |
| Basic dimensions | length | mm | 960 | |
| | width | | 620 | |
| | height | | 888 | |
| Rated rpm | | rpm | 56 | 70 |
| Capacity | | t/h | 10 * | 15 * |
| Rated supply voltage | | V | 230/400 | |
| Installed power | | kW | 1.5 | |
| Total weight | | kg | 83 | |

* This applies to volume density of 500 kg.m⁻³.
